

State coalitions of business, education, and public policy working towards systemic reform in STEM education receive unique and unparalleled benefit from joining NASSMC. In addition to one-on-one technical support services to coalitions at all states of development, member-coalitions receive exclusively:

- Access to the NASSMC offices, located minutes from Washington, DC, providing ready contact with leading decisionmakers within the Federal government, business sectors, and education;
- Participation at the Annual Directors' Meeting as well as paid travel expenses for one representative to that event;
- Dedicated Web presence on the NASSMC website for hosting coalition information;
- Access to a community of other state coalitions willing to share their knowledge and expertise;

- In-state meeting support and facilitation services towards coalition development, action planning, and long-term planning;
- First notification of NASSMC publications, news, and funding opportunities;
- Assistance in the development and implementation of a comprehensive Public Awareness Action Plans through the Annenberg/CPB Public Awareness and Engagement Project; and
- Personalized, one-on-one grants research based on the coalition's program ideas through the GrantSeeker service.

NASSMC dues are \$200.00 annually. Assistance in developing the application is available.
